

List of sessions of SBG members interest. To view complete information regarding conveners and description, you must have Internet connected and click the highlighted title to go to AGU homepage.

UNION

- U01: [Climate Impacts of Mega-cities.](#)
- U02: [Dissemination of Knowledge: Towards Environmental Services.](#)
- U03: [Environmental and Geophysical Observatories and Data Networks in the Americas](#)
- U04: [Flood Basalts and Mass Extinctions](#)
- U05: [Global Change Impacts on Tropical Ecosystems: A Synthesis from the Inter-American Institute for Global Change Research \(IAI\) and related research projects](#)
- U06: [Hydrology from Space](#)
- U07: [International Collaboration in Earth and Space Sciences: Present Status, Needs and Future Perspectives](#)
- U08: [Large Fans as Mesoscale Landforms](#)
- U09: [Natural Hazards and Disaster Risk in Latin America and the Caribbean](#)
- U10: [Rethinking Integrated Assessments and Management Projects in the Americas](#)
- U11: [South American Climate and Landscape Evolution During the Late Cenozoic](#)
- U12: [Synthesis of Major LBA Research Results](#)
- U13: [The 2010 Haiti Earthquake, Lessons for Seismic Hazard and Societal Impacts in the Caribbean](#)
- U14: [Thermal Regimes and Orogenesis from Archean to Present](#)

VOLCANOLOGY, GEOCHEMISTRY AND PETROLOGY

- V01: [Volcanology, Geochemistry and Petrology General Contributions](#)
- V02: [Collisional Scenarios Related to Accretion Along the Western Margin of South America](#)
- V03: [Layered intrusions: up and down inside a volcano](#)
- V04: [LIPs and Mafic Dyke Swarms of South America](#)
- V05: [Magmatism and the Evolution of Andean Type Crust and Lithosphere](#)
- V06: [Mantle Plumes in the Atlantic Ocean](#)
- V07: [Monitoring of Volcanic Gases and Their Atmospheric Interactions and Impacts](#)
- V08: [Monogenetic Volcanism](#)
- V09: [New Developments in Non-Traditional Stable Isotope Geochemistry](#)
- V10: [Understanding Magmatism: from crystals to provinces](#)

TECTONOPHYSICS

- T01: [Tectonophysics General Contributions](#)
- T02: [Amalgamating Western Gondwana](#)
- T03: [Andean Tectonics and Geodynamics](#)
- T04: [Borborema Province Evolution in NE Brazil: Insights into Gondwana Assemblage and Break-Up.](#)
- T05: [Divergent Margins](#)
- T06: [Flat Slab Subduction](#)
- T07: [Margins of the Americas: Constraining the interactions between slabs, plates, and keels](#)
- T08: [Seismogenesis of intraplate earthquakes](#)
- T09: [Subduction Zones: From the Trench to the Arc](#)
- T10: [The Chile-Argentina Flatslab: Structure, evolution and interactions with mantle and overlying lithosphere.](#)
- T11: [Thermal Structure, Composition and Evolution of the Lithosphere](#)

SEISMOLOGY

- S01: [Seismology General Contributions](#)
- S02: [Advances in Seismic Data Analysis Methods](#)
- S03: [Constraints from Seismic and other Experiments on Processes Controlling the Evolution of the Central Andes](#)
- S04: [Continental Crustal and Lithospheric Structure 100 Years After Mohorovicic](#)
- S05: [Intermediate-Depth Seismicity Nests within Purely Intra-continental Environment](#)
- S06: [Seeds of Cooperation: Geophysical Monitoring, International Collaborations and Sustainable Scientific Growth](#)
- S07: [Seismic Microzoning and Risk Management in Latin America](#)
- S08: [Seismic Wave Scattering](#)
- S09: [Seismicity induced by human technological activity](#)
- S10: [Standardization of Seismic Hazard Methods in South America](#)
- S11: [The International Federation of Digital Seismograph Networks \(FDSN\): Perspectives in Latin America](#)
- S12: [Upper Mantle Structure and Geodynamics of South America](#)

NATURAL HAZARDS

- NH01: [Natural Hazards General Contributions](#)
- NH02: [Advances in Volcano Monitoring in Latin America](#)
- NH03: [Drought in the Intra-Americas Seas](#)
- NH04: [Hazard Natural Events \(Earthquakes, Tsunami, Volcanoes\)](#)
- NH05: [Land-Ocean-Atmospheric Processes over Americas: Implication to Natural Hazards and Global Carbon Cycle](#)

- NH06: [Landslides under extreme weather conditions in Latin America and Caribbean](#)
- NH07: [Natural Hazards of the Americas in Focus of Geosciences](#)
- NH08: [Prevention and mitigation of mass movements and landslide hazards](#)
- NH09: [Societal Impacts of Monsoon Variability in the Americas](#)
- NH10: [Volcanic Ash and Aerosols: Monitoring, Modeling, Forecasting and Hazards](#)

NEAR SURFACE GEOPHYSICS

- NS01: [Near Surface Geophysics General Contributions](#)
- NS02: [GPR and EMI Developments and Applications in Agriculture](#)
- NS03: [Medical Geology](#)
- NS04: [Near-surface Geophysics for Prediction and Monitoring](#)
- NS05: [Open Reference Data Sets, Software and Control Test Sites](#)
- NS06: [Radioactivity in the Near Earth Surface Environment](#)
- NS07: [Technological Developments in Near-surface Geophysics](#)

BIOGEOSCIENCES

- B01: [Biogeosciences General Contributions](#)
- B02: [Andean Amazon: bridging upper & lower basins](#)
- B03: [Astrobiology and prebiotic chemistry](#)
- B04: [Biogeochemical transformations of contaminants in freshwater systems](#)
- B05: [Carbon Budget at Hydroelectric Reservoirs](#)
- B06: [Impacts of Development on the Amazon Aquatic System](#)
- B07: [Inland and littoral waters as a Land-Ocean-Atmosphere interface in the global carbon cycle](#)
- B08: [Land Use and Forest Options for Greenhouse Gas Emission Reduction Strategies](#)
- B09: [Land-Water Interactions in the Amazon](#)
- B10: [Linking Hydrology and Nutrient Cycling in Large Wetland Ecosystems](#)
- B11: [Marine and Coastal Ecosystems Biodiversity](#)
- B12: [Microbialite Formation in the Southern Hemisphere from Archean to Modern](#)
- B13: [Microbialites: Where, when and why?](#)
- B14: [Nitrogen cycling in Latin America. What we know, where we stand and future scenarios](#)
- B15: [Processes of carbon and water cycles in Brazilian ecosystems](#)
- B16: [Regional-scale budgets of greenhouse gases for Amazonia](#)
- B17: [Remote Sensing Applications in Seasonally Dry Tropical Ecosystems](#)
- B18: [Response of Coupled Biogeochemical Cycles to Environmental Change](#)
- B19: [Response of Soil Carbon Pools to Land-Use Change: Local to Global Scales](#)
- B20: [Restoration of Function and Diversity in the Atlantic Rainforest](#)

B21: [Savanna ecosystems: regional and global interactions](#)

CRYOSPHERE

C01: [The Dynamic Cryosphere](#)

GLOBAL ENVIRONMENTAL CHANGE

GC01: [Global Environmental Change General Contributions](#)

GC02: [Climate change, Biofuels and Environmental Pollution](#)

GC03: [Climate Prediction Using Model Ensembles and Statistical Techniques](#)

GC04: [Coastal Wetland Response to Climate Change](#)

GC05: [Environmental and climatic reconstruction based on biological proxies](#)

GC06: [Global Change Influence on Physical-Biological Interactions in Coastal Settings](#)

GC07: [Modeling and Analysis of the Present and Future Hydroclimate of the La Plata Basin](#)

GC08: [Monitoring Forests with Airborne and Satellite-based Sensors](#)

GC09: [South American Remote Sensing Using ALOS](#)

HIDROLOGY

H01: [Hydrology General Contributions](#)

H02: [Advanced Hydrological Modelling under Climate Change](#)

H03: [Advances in Hydrogeophysics](#)

H04: [Contemporary Urban Ecohydrology](#)

H05: [Ecohydrology in the Context of Land Cover and Climate Changes: Challenges and Opportunities](#)

H06: [General Session on Precipitation](#)

H07: [Old Forests, Secondary Forests, and new Forests: Does the Water Cycle Care?](#)

H08: [Rivers](#)

H09: [Soil Erosion and Sediment Transport Modeling](#)

H10: [Surface Water and Groundwater Interactions in the Americas](#)

H11: [The Complementary Roles of Modeling and Monitoring in Environmental Management and Remediation](#)

H12: [Transboundary Hydrologic and Climate Research: Toward sustainability in a multidisciplinary and international context](#)

H13: [Water Resources Under Stress: Climate Variability, Land Use Change, and Atmospheric Deposition.](#)

H14: [Wetlands of the Americas: surviving climate and anthropic influence](#)

OCEAN SCIENCES

- OS11: [Gravity-driven Processes Along Continental Margins](#)
- OS14: [Modern and ancient deep marine sedimentary systems](#)
- OS18: [Numerical and Physical Modeling of Deep Water Sedimentary Processes](#)
- OS22: [Sediment Sources and Transfer Processes Extending from Terrestrial Settings to Ocean Sinks](#)
- OS23: [Southern Hemisphere Sea Level Variations](#)

PALEOCEANOGRAPHY AND PALEOCLIMATOLOGY

- PP01: [Paleoceanography and Paleoclimatology General Contributions](#)
- PP02: [Biological Implications for Antarctic Glacial History](#)
- PP03: [Climate of the Americas from High-Resolution Climate Proxies, Instrumental Records, and Modeling Studies](#)
- PP04: [Geomagnetic Field and Climate, Data, Methods](#)
- PP05: [Interhemispheric Teleconnections and Quaternary Marine and Continental Climate Records](#)
- PP06: [Oceanography and Paleoceanography of the Marine Upwelling Systems of South America](#)
- PP07: [Paleoclimatic and environmental reconstructions in South America for the Late Glacial and Holocene: Combining empirical and modeling evidence](#)
- PP08: [Precambrian paleoenvironments and paleoecosystems](#)
- PP09: [Quaternary Ecosystem Dynamics in Tropical South America](#)
- PP10: [Reconstruction and Modeling of Precipitation and Hydrology over the tropical Americas during Late Quaternary](#)
- PP11: [Sediment Geochemistry in Environmental Research](#)

GEOMAGNETISM AND PALEOMAGNETISM

- GP01: [Geomagnetism and Paleomagnetism General Contributions](#)
- GP02: [Advances in tectonic interpretation of magnetic fabrics and in their experimental techniques](#)
- GP03: [Environmental Magnetic Records of Events Affecting and Affected by Humans](#)
- GP04: [Experimental characterization, models and imaging of magnetic phases relevant to paleo- and environmental magnetism](#)
- GP07: [Loess in the Americas: Magnetism, Palaeoclimate and Palaeoenvironment](#)
- GP08: [Magnetic anomalies of Equatorial area and Southern Hemisphere](#)
- GP09: [Magnetic Methods Applied to Hydrocarbon Exploration](#)
- GP10: [Magnetostratigraphy: Not Only a Dating Tool.](#)
- GP11: [Modern Magnetic and Other Physical Techniques Applied to Archaeology and Anthropology](#)
- GP12: [Nanoparticles formed in the natural Earth system](#)
- GP14: [Paleomagnetic studies for the reconstruction of tectonic processes](#)
- GP16: [Planetary Magnetism, Meteorites, Impact Craters and Planetary Dynamoes](#)

GP17: [Precambrian Supercontinents](#)

GP18: [Probing Tectonic Processes With Electromagnetic Methods](#)

GP19: [The acquisition, processing, and interpretation of magnetic and gravity data](#)

EARTH AND SPACE SCIENCES INFORMATICS

IN01: [Earth and Space Science Informatics General Contributions](#)

IN02: [Data, metadata and services](#)

IN03: [Earth and Space Science Cyberinfrastructures: Data, Tools, Distribution and Forecast Systems for International Collaboration](#)

IN04: [Inverse problems in geosciences](#)

IN05: [Virtual Observatories in Geosciences](#)

EDUCATION AND HUMAN RESOURCES

ED01: [Education and Human Resources General Contributions](#)

ED02: [Broader Impact Actualized Through Full Engagement](#)

ED03: [Developing Sustainable Education and Outreach Programs-Projects](#)

ED04: [Education in Geophysics: The Latin American Experience](#)

ED05: [Innovative Educational Technologies and Successful Pedagogical Practices in Space Sciences Education](#)

ED06: [Interactive Multimedia, Simulations, Animations, and Web 2.0 Resources for Earth and Planetary Sciences Teaching and Learning](#)

ED07: [Teacher Professional Development Programs and Innovative Practices for In-Service Geoscience Teachers](#)

ED08: [The Space Conference of The Americas: Science and Educational Strategies for the Region](#)
